

SE 315 – SOFTWARE PROJECT MANAGEMENT
PROJECT RISKS DOCUMENT

PROJECT NAME: NIGHT JUNGLE

**GROUP MEMBERS: Elif Berna Kuru, Elif Duygu Petenkaya, Çağatay Yalçın,
Melike Erdemir**

LIKELIHOOD RANK	RISK DESCRIPTION
1	Schedule - the project schedule is too constricted to develop such a project
2	Design Complexity - the team has little experience with the deployment platform and communication protocol
3	Requirements Volatility - requirements can be changed during the development cycle when requested from customer.
4	Tools - the team must learn about new configuration management tools
5	Acquisition of Hardware – deployment hardware must be purchased and installed to test the software product
6	Size Underestimation – the size of the system may be larger than the planned.

IMPACT RANK	RISK DESCRIPTION
1	Acquisition of Hardware – deployment hardware must be purchased and installed to test the software product
2	Requirements Volatility - requirements can be changed during the development cycle when requested from customer.
3	Tools - the team must learn about new configuration management tools
4	Design Complexity - the team has little experience with the deployment platform and communication protocol
